

M. ZIETZSCHMANN

GmbH & Co. KG
Logistics for bulk and large quantities of general cargo

M. ZIETZSCHMANN

GmbH & Co. KG

Logistics for bulk and large quantities of general cargo

- 1873 - Max Zietzschmann founds the company in the Port of Duisburg
- Early 20th Century – Expansion to Düsseldorf and Neuss and continuous development of the port facilities
- 1978 - Neuss-Düsseldorf and Duisburg branches are separated into two independent organisations
- From 1983 - Construction of a modern dry transshipment facility with covered storage
- 2002 - Purchase of a Bulk Terminal in the Port of Neuss
- 2012/2013 - Rebuilding and modernisation of the Bulk Terminal in the Port of Neuss to one of the most modern and flexible transshipment facilities in the region
- 2017 - Purchase of a second Break-Bulk Terminal in the Port of Neuss to handle increased customer requirements

Today, M. Zietzschmann GmbH & Co. KG is an ISO-certified company with around 40 employees, three terminals in the Port of Neuss as well as many further transshipment facilities in various Inland and Sea Ports.

Led by Tobias Haberland, M. Zietzschmann is in the fourth generation and has developed to an integrated logistics services supplier.

- Short Sea

Barge

Rail

Truck

- Tautliner,
- Sliding Floor,
- Silo
- Tipper

M. ZIETZSCHMANN

GmbH & Co. KG

Logistics for bulk and large quantities of general cargo

It is our goal to provide the ideal logistics solution for every single client in terms of cost-efficiency and the ecological footprint. We try to handle longer transport routes by barge or rail and only complete the last stage by truck. In addition to a reduced carbon footprint, this also means less busy roads and less wear and tear on the infrastructure.
